WHAT'S THE “SECRET SAUCE” FOR SUCCESSFUL LEAD GENERATION?

This guide will provide agents, brokers and teams with a deep dive into strategies to stand out from the crowd, build (and nurture) a successful pipeline, and drive higher conversions.

This guide is packed full of easy-to-implement tips, tricks & strategies, an overview of how Elevate's lead generation technology does 90% of the work for busy real estate professionals, along with a **special lead generation offer** to jumpstart your online lead generation.

THE STATE OF ONLINE LEAD GENERATION IN REAL ESTATE

In a poll by Elevate, **76% OF REAL ESTATE AGENTS** said that their current lead generation was weak or non-existent.

In another poll by Elevate, **51% OF AGENTS** said they spend less than \$1000/m on leads, **40%** said they have zero spend on leads.

Today, **44% OF REAL ESTATE BUYERS** start their home search online, and **95%** use the internet at some point in the buying process.

Companies with 10 to 15 landing pages **INCREASE LEADS BY 55%**.

90% OF SALES LEADS said they'd prefer to be texted, compared to 10% who preferred to be called.

99% OF TEXTS are read and have an average response time of 90 seconds.

According to RISMedia, a leader in real estate information, **50% OF ONLINE LEADS** do not convert into customers for at least 12 to 24 months.

ONLY 2% OF THE LEADS you receive are ready to move to transaction in 30/60 days.

THE OTHER 98% statistically take up to 13 months to move to transaction. These are not BAD leads, these are GOOD leads that aren't ready YET.

MISCONCEPTIONS TO TACKLE

MISCONCEPTION: "These leads suck!"

REALITY: Before making that judgement, take a step back and evaluate what you are doing to follow up. Is it more than a handful of touches? Often it's not the quality of the lead, it's the quality of the follow-up.

MISCONCEPTION: "If the lead isn't ready to convert, it's not a good lead."

REALITY: A lead that isn't ready to convert within 30 days is not a "bad" lead, it's a lead that isn't ready yet.

MISCONCEPTION: "Leads are expensive and don't have a good ROI."

REALITY: The quality of your follow-up is THE determining factor in your lead ROI. Good quality follow-up will nurture and move leads through the pipeline for you to conversion, providing more than enough ROI.

MISCONCEPTION: "Leads that aren't converting aren't worth my time."

REALITY: Some leads take a long time, but that is why it is so important to have automated processes in place to nurture those leads while you focus on your hotter ones.

MISCONCEPTION: "Nurturing leads takes too much time."

REALITY: Nurturing a lead takes time, but it doesn't need to take YOUR time. Automate, automate, automate!

MISCONCEPTION: "Postcards work better."

REALITY: Email allows you to be more proactive because you can see who is engaging with it, automate responses off their actions, and start making follow-up calls immediately.

CAPTURE & CONVERT IN YOUR CRM

Your leads have been introduced to you, they have raised their hand, they have given you their information. Have a good CRM that is collecting that data and moving them onto the next step.

WHAT SHOULD YOUR CRM BE DOING?

1. Collecting and segment leads from all your different lead gen sources (*website, posts, ads, gated content, etc.*)
2. Building out lead profiles using data collected from those sources
Full name, address, age, occupation, education, income level, SM profile, estimate of home value. Triggering follow-up actions and notifications.
3. Tracking your leads' behaviors, actions, searches, etc.
on your listings and website, and sending you notifications based on that engagement.
(*New/changed searches, increased email opens/clicks, etc.*)
4. Moving your leads through the sales funnel for you through those automated processes & workflows.

The screenshot displays the elevate CRM software interface. On the left, a vertical sidebar lists navigation items: Dashboard, Contacts, MLS Search, Assets, CMAs, My Site, Email Editor, and Help. The main dashboard features four key metrics: New Leads (12, 2 Unviewed), Active Clients (9), Tasks Today (15, 3 Overdue), and GCI (30000, 29.8k left). Below these, a table lists three new leads: Miranda Wagner (Seller, New, 05/28/20, Consumer site), Chana Hebert (Seller, New, 05/28/20, Zillow), and Yurem Ingram (Seller, New, 05/28/20, PPC). Each lead entry includes activity counts (Views, Faves, New Matches) and engagement buttons for Message, Call, and Mail.

LEVERAGING EMAIL & TEXT CAMPAIGNS

The quality of your follow-up processes and workflows is critical to how the quality of your lead & their experience with you. Follow-up MUST start immediately, MUST be consistent, and MUST provide value. This is where services like Zillow fall short, and where a CRM with a smart workflow will excel.
